

TUTARE

RISK MANAGEMENT

SECURITY
IS IN OUR NATURE

ABOUT **TUTARÉ**

Tutaré Risk Management is a fully licensed and registered company providing risk management and commercial security in Africa.

We deliver international standards providing a quality level of service across our client portfolio. Tutaré has grown rapidly in size and have a proven track record and success in Juba South Sudan and extending into Niger and the African market. Our focus has remained on providing effective and robust security services to humanitarian organisations, embassies, financial institutions among other client sectors.

THE COMPANY

STRATEGY

Our strategy is based on having a thorough understanding of our client's needs and the environment in which they choose to conduct their business. Tutaré Risk Management recognises that security is not a science, but an art and by identifying this we know that one solution does not manage or mitigate all threats in all environments or situations. Through our extensive knowledge and understanding we are confident we can meet and where possible exceed our client's expectations.

SUCCESS

To ensure the continuous success and growth of the company we employ industry recognised standards, practises and protocols. We also provide accredited training and professional development for all of our staff. In doing so we ensure not only we provide a safe and secure working environment for our clients, but we provide a professional structure for our own people.

Our localised success is not only to recognise the immediate environment and the threats that it may present, but to engage with the local community at all levels and establish strong localised partnering agreements. Through this process we not only enhance the local community and the economic situation, but we engage the local community through continuous dialogue and community interaction.

DELIVERY

Our services are delivered in a timely, efficient, ethical and effective manner. Our dedicated in country management team remain fully engaged with our clients throughout the duration of contract or task. Thus ensuring customer requirements are satisfied.

We provide our clients a tailored personal communication model that best suits them. This open communication not only facilitates any requirement changes to be implemented in a timely manner but also allows for any immediate concerns to be addressed.

WHERE WE SUPPORT

REPUBLIC OF SOUTH SUDAN

Tutaré Risk Management is a fully licensed and registered security company based in Juba South Sudan. We are one of the few security companies to be awarded the National Security Clearance Certificate.

REPUBLIC OF NIGER

Tutaré Risk Management is incorporated in Niger to specialize in supporting international business back into the regional business sector.

REPUBLIC OF MALI

Our approach to working in Mali is based on the principles of adopting a flexible approach, that is discreet, and avoidance based.

OUR PEOPLE

We recognise that our people are our most valuable asset from frontline staff to administrative and logistical support staff, all are held in the highest regard. Tutaré Risk Management prides itself on being an equal opportunities employer. We believe that our robust, diverse and proven employment structure enables us to deliver our product to the highest standard through our people. Our continued investment in our professional development structure allows each employee progression and performance-based promotion within the company. Tutaré's management structure is diverse in nature but equal in style and delivery. Our local managers are not only responsible for the daily oversight and management of our projects but are fully engaged with capacity building, project planning and crisis and incident response.

Selected on the basis of previous experience and confirmed reference checks. All our staff undergo initial, continuation and specialised personal development training.

OUR ETHOS

Our client-centric focus permits us to concentrate on supporting the client in the achievement of their aims and goals. Our results orientated approach is instilled in all our employees who share our professionalism and dedication to succeed. Our ongoing commitment to our staff, our technological, our infrastructure development and our continued pursuit of innovative solutions ensures we remain market leaders.

**Embrace innovation,
commit to development
& achieve goals**

OUR SERVICES

SECURITY

Every service Tutaré provides is tailored to address the specific risks facing our clients. Our staff are standing next to you when decisions are made. When combined with our cost-effective pricing and quality of delivery, Tutaré represents a truly unique capability unmatched by any other.

INFORMATION SERVICES

Our guiding principle is that of information-led security. Using local knowledge and in-country relationships, we provide pro-active and threat-based security support for our clients. We protect, facilitate, and advise our clients constantly, adding value by monitoring threats daily and adapting security configurations accordingly.

TRAINING

Tutaré Risk Management regards training as a critical aspect of safe and successful operations in high-risk environments. Ensuring our own staff and our clients' personnel are effectively trained. This is a central element of both our capability and our duty of care.

BUSINESS COMPLIANCE

Our compliance sector brings together a unique set of skills, qualifications and experience to enhance resilience in client businesses, manage security risks utilising an advanced and effective approach, and assist companies to gain industry recognition and competitive advantage.

*The only place
where you'll get
robust and effective
security solutions.*

EMBEDDED SECURITY MANAGERS

As part of our global reach, a key part of our consulting services offer is providing clients with Embedded Security Advisors (ESAs).

ESAs are subject-matter experts in their respective geographic areas of operation and the industry sectors they support. Candidates are handpicked, based on strong personal references and previous experience of working with Tutaré Risk Management. The ESAs work within a client organization with support, where required, from Tutaré management teams to provide a bespoke yet turnkey security solutions. Their focus ranges from analysing security requirements and the broader company goals to working closely with project teams to identify potential threats and opportunities. They also ensure that there is a seamless

transition through the planning phases to the delivery of security services.

Our subject matter experts can also include Medical, HSSE, investigators and Training qualities and in some cases a combination.

Fully embedded ESAs report directly to your management team as a member of your company structure. The ESA will enjoy the full reach-back of all Tutaré operational capabilities. Our advisors are suited to large multi-national blue-chip organisations or smaller NGO's on a restricted or reduced budget that employ our staff part time. Our ESA will truly be one of your staff but benefits from links with Tutaré and our company contacts and experience.

CLIENT SECTORS

DIPLOMATIC

The complexity of the international threat landscape in today's world poses a boundless risk for governments operating in high-risk, remote areas or emerging markets. We are a trusted and proven company for over 10 countries operating in Africa that delivers protective services to safeguard government missions' either diplomatic, military or aid oriented. Our customized security solutions are designed allowing our customers the ability to remain focused on their primary business within a secure environment.

NON-GOVERNMENT ORGANIZATIONS

NGO's have been the pillar of support for Tutaré Management Group since we were founded. We understand the nature and sensitivities of the work involved in sometimes extremely challenging environments. We work extensively to enable and support programs offering a highly cost-effective solution to all security, training and logistic operations. Our training packages are always well received offering in country knowledge and experience.

HUMANITARIAN ORGANIZATIONS

Tutaré can offer our customers a wide range of services, methodologies and approaches. We promote a culture of awareness, risk assessments, early warning and real-time alerting, community stakeholder liaison, contingency planning and crisis management preparedness that allows your staff to coordinate efficiently in country with the knowledge that they are securely supported close by. With our rigorous compliance models, we are ready to meet all regulatory standards.

CRITICAL NATIONAL INFRASTRUCTURE

Africa is developing fast and Tutaré operational and protective security solutions offer businesses a flexible partner with country advice and reach to ensure the safe and effective operation of personnel and assets in frontier and developing markets. We provide threat advisory services, security risk management and on-the-ground protective services to ensure continuity of operations in adverse climates. Our expertise in Telecoms and Roads projects offer a multitude of solutions aimed at protecting your equipment and materials.

OIL & GAS

We fully understand the complexities of modern oil field operations and the importance of maintaining flexibility. Tutaré security management solutions are designed to optimize operational readiness and promote productive working conditions and overall quality of life for oil and gas personnel in a cost-effective manner. Our experienced professionals work to understand and incorporate project requirements and desired outcomes in a bespoke solution that ensures seamless operations and addresses threats to oil & gas facilities.

CONSTRUCTION

Our professional security management consultants and security officers provide companies who are concerned about their large construction projects which may be in a high-risk, threat-based environment. We develop customized and efficient security solutions with the right balance of on-site security officers, mobile guarding services and technological security solutions. We can provide threat analysis, construction security training, operational planning, construction emergency response planning, project vulnerability assessments, and technical security services.

GOVERNANCE & COMPLIANCE

HIGH STANDARDS

Tutaré Group standards are based upon integrity, transparency and respect whilst ensuring that good governance and best practice underpin all the Company's business activities. We take pride in the high standards and quality of support that we provide and operate under a processed Quality Management system which conforms to ISO9001:2015 Quality Management System. Our management system in addition conforms to ISO31000:2018 – Risk Management Principles and Guidelines. The process effectively covers all areas of operations and are facilitated by a robust and diligent auditing, checking and management review process.
